At the start of every term:
Review and highlight the tasks for that term.

LANGUAGES

Course Description
The Year 7 Languages program introduces students to the basic skills of language learning and offers a 'taste' of the three languages offered at St George Girls High School: French, Japanese and Latin. Students study each language in a rotation of approximately 13 weeks. The Semester 1 Report includes only the results for the first language studied; the Semester 2 Report includes both the remaining languages.

- In the **French course**, students are introduced to French language and culture, learning to exchange personal details and communicate using basic language and vocabulary.
- In the **Japanese course**, students explore the Japanese writing system through the identification of different scripts and the introduction to hiragana and kanji scripts. They learn to communicate, exchanging personal details. The course also explores customs and culture, both traditional and popular, of Japanese society.
- The **Latin course** introduces students to the history, culture and mythology of the Romans through the family of Caecilius – a real Roman who lived in the ancient city of Pompeii 2,000 years ago. Students learn the basic vocabulary and grammar needed to read and write simple Latin sentences, and gain an appreciation for how Latin has influenced and enriched the English language.
